

SCARBOROUGH FAIR

LEAD SHEET PACK

This Lead Sheet Pack accompanies the full video lesson on The Keys Coach YouTube channel.

Introduction

from Adam Saunders

Want to turn a simple lead sheet into something that actually flows like music?

Inside you'll find the original lead sheet for **Scarborough Fair**, plus a written example showing how melody, bass and chords start to come together at the piano. This isn't a full arrangement — it's the starting point, and the exact framework I use in the video.

If we haven't met, I'm Adam from The Keys Coach. My goal is to help you play with more freedom, confidence, and musical flow at the piano.

Let's dive in!

SCARBOROUGH FAIR

LEAD SHEET

Em⁷ D Em⁷

Are you going to Scar - bo - rough Fair

5 A Em⁷

Pars - ley sage, rose ma - ry and thyme _____ Re -

10 C G D

mem ber me to one who lives there _____

14 Em⁷ D Em⁷

she once was a true love of mine

"Think of a lead sheet as a creative springboard — an open invitation to get creative!"

SCARBOROUGH FAIR

MELODY, BASS & CHORDS

The musical score is written for piano in 3/4 time, key of D major. It consists of four systems of staves. Each system includes a treble and bass staff with a grand brace. Chords are indicated by letters (Em7, D, A, C, G) above the treble staff. The melody is written in the treble staff, and the bass line is written in the bass staff. The score is a bare-bones arrangement, focusing on the melody, bass, and chords.

System 1: Chords: Em7, D, Em7. Melody: E4, B4, B4, A4, G4. Bass: E3, E3, D3, C3, B2.

System 2: Chords: A, Em7. Melody: B4, D5, E5, D5, C5. Bass: E3, E3, D3, C3, B2.

System 3: Chords: C, G. Melody: E4, B4, B4, A4, G4. Bass: E3, E3, D3, C3, B2.

System 4: Chords: D, Em7, D, Em7. Melody: E4, B4, B4, A4, G4. Bass: E3, E3, D3, C3, B2.

"Here is the bare-bones arrangement – melody, bass, and chords working together. From here, you can begin adding the creative elements as shown in the video."

From Lead Sheet to Flowing Arrangement

The 7 Steps

This isn't about perfection.

It's about knowing where to start — and what comes next. Use this 7-step process to turn any lead sheet into music that flows.

1. Lock In The Melody

The right hand owns the tune.
Secure it in fingers 4 & 5.
If the melody isn't solid, everything else feels wobbly.

2. Add the Bass

Simple root notes in the left hand.
This is where the music gains weight and stops sounding thin.

3. Support with Chords

Add chords under the melody in the right hand.
Support the tune — don't clutter it.
Less is usually more.

4. Create Flow with Rhythm

Listen for gaps in the melody.
Add movement, not complexity.
This is where it starts to feel like music.

5. Fill the Gaps Tastefully

Short ideas that respond to the tune.
Not licks. You're answering the melody, not filling space.

6. Shape The Intro

Use ideas from the song itself.
Simple. Intentional.
If you know how you're starting, everything feels calmer.

7. Craft the Ending

Don't fade out.
Land the harmony. Endings turn playing into a performance.

GETTING STARTED —

Where To Find Lead Sheets?

Once you've tried this on **Scarborough Fair**, you might want to explore other songs to apply the same approach.

Here are some useful (and legal) places to find quality lead sheets online:

- **MusicNotes.com**
Licensed lead sheets with melody + chords, transposable to different keys.
- **SheetMusicDirect.com**
Strong catalogue of pop, jazz, and classic songs in lead sheet format.
- **Fakebooks / Real Books**
 - *Classic jazz and standards collections in lead sheet format. Great if you're exploring the jazz tradition or want a big library in one volume.*

Remember — this is just a starting point.

The goal here is to have a clear order in which you assemble one of these solo piano arrangements.

Explore it. Make small changes. Trust your ears. That's where your playing really begins to flow.

Cheers!

Adam

Meet Your Coach

Adam Saunders

Adam is the founder of The Keys Coach, helping piano players unlock freedom, confidence, and creativity at the keys.

He is a **Professor at Trinity Laban Conservatoire, London** where he co-founded their Popular Music degree—one of the first of its kind in the UK.

He's a **published author**, international **keynote speaker**, and **professional piano player** who has performed on global stages and major TV networks.

The mission: to help you break free from rigid, traditional methods so you can play with true *musicality, creativity, and joy*.
